Calgary Co-op believes in giving back to the communities it serves.

In 2008, we contributed over \$1.9 million in food and funds to local charities, youth initiatives, food banks, crisis centres, and other groups.

Calgary Co-op has also taken proactive steps to reduce its ecological footprint. We have a comprehensive energy conservation program at all of our locations. The result has been a reduction in energy consumption and greenhouse gas emissions of almost 20%.

With the help of our members, customers and employees, Calgary Co-op will continue to conserve, protect, and enhance the environment by offering programs such as:

- Onsite and in-store cardboard, paper and milk jug recycling.
- Book exchange.
- Sale of re-usable environmentally-friendly canvas bags as well as recycling of plastic bags.
- Donation of food items to local charities, shelters and other groups.
- Installation of energy efficient lights, coolers, water-conservation installing mechanisms, and programs.

**Thank you for helping us to care for the community and protect the environment!**
