The world's economics have been turbulent lately, and this has had its impact on the Calgary market. I feel proud that Calgary Co-op has positioned itself in a favourable manner to weather this storm, but now, the key will be how to take advantage of this so that Calgary Co-op can continue to grow and thrive. One important element that has helped us in these uncertain times has been our employees. We have fantastic people that work for Calgary Co-op, and we need to ensure that we always have these fantastic people working for our association.

I believe that we need to continue to build new innovative centres, adhere to our core competitive advantages, such as service and quality products, and explore new business offerings for our members. By doing this, we will remain the "premier shopping destination in the communities we serve."

My name is Alex Ingram, and I appreciate your vote.
