PROPOSAL

Whereas: Background: Hamptons COOP's closure on March 28, 2026

The Location has been serving Hamptons and Edgemont community for over 20 years. Many residents rely on this location for pharmacy service and convenient groceries. In addition, there're some high products and local brands, such as "Founders and Farmers" that shoppers can't get similar substitute products from the second nearest store, which is the Superstore. Moreover, this creates extra challenges for a lot of seniors who don't drive to access for groceries and their regular medications.

Whereas: I've asked the Hamptons Homeowners Association, they said that Coop owns this property. As a member-owned cooperation, I think serving the community's needs is equally important as making profit.

BE IT RESOLVED: That Calgary Co-op consider bringing a similar service provider (groceries/pharmacy) to the Hamptons location with the potential for the property to be divided into several units for lease provided that groceries and pharmacy essentials will be available to the nearby neighborhoods.
